

Whole Community Palliative Rounds

Defining the Target Population & Intake Process

Presented by: Brenda Hunter, RN BScN - Clinical Analyst

Team: Leslie Marvell RN BScN CHPCN(c) CON(c),
Shelley Bruyere RN CHPCN(c)

AIM & OBJECTIVES

AIMS

- Greater collaboration
- Symptom management
- Improved care planning
- Achieving client goals

OBJECTIVES

- Successful completion of three rounds with multiple attendance by December 2019
- Increased attendance by community practitioners by 50%,
- Reduced early admission hospice
- Reduced transfer to hospital rates
 - all within 6 months from first round.

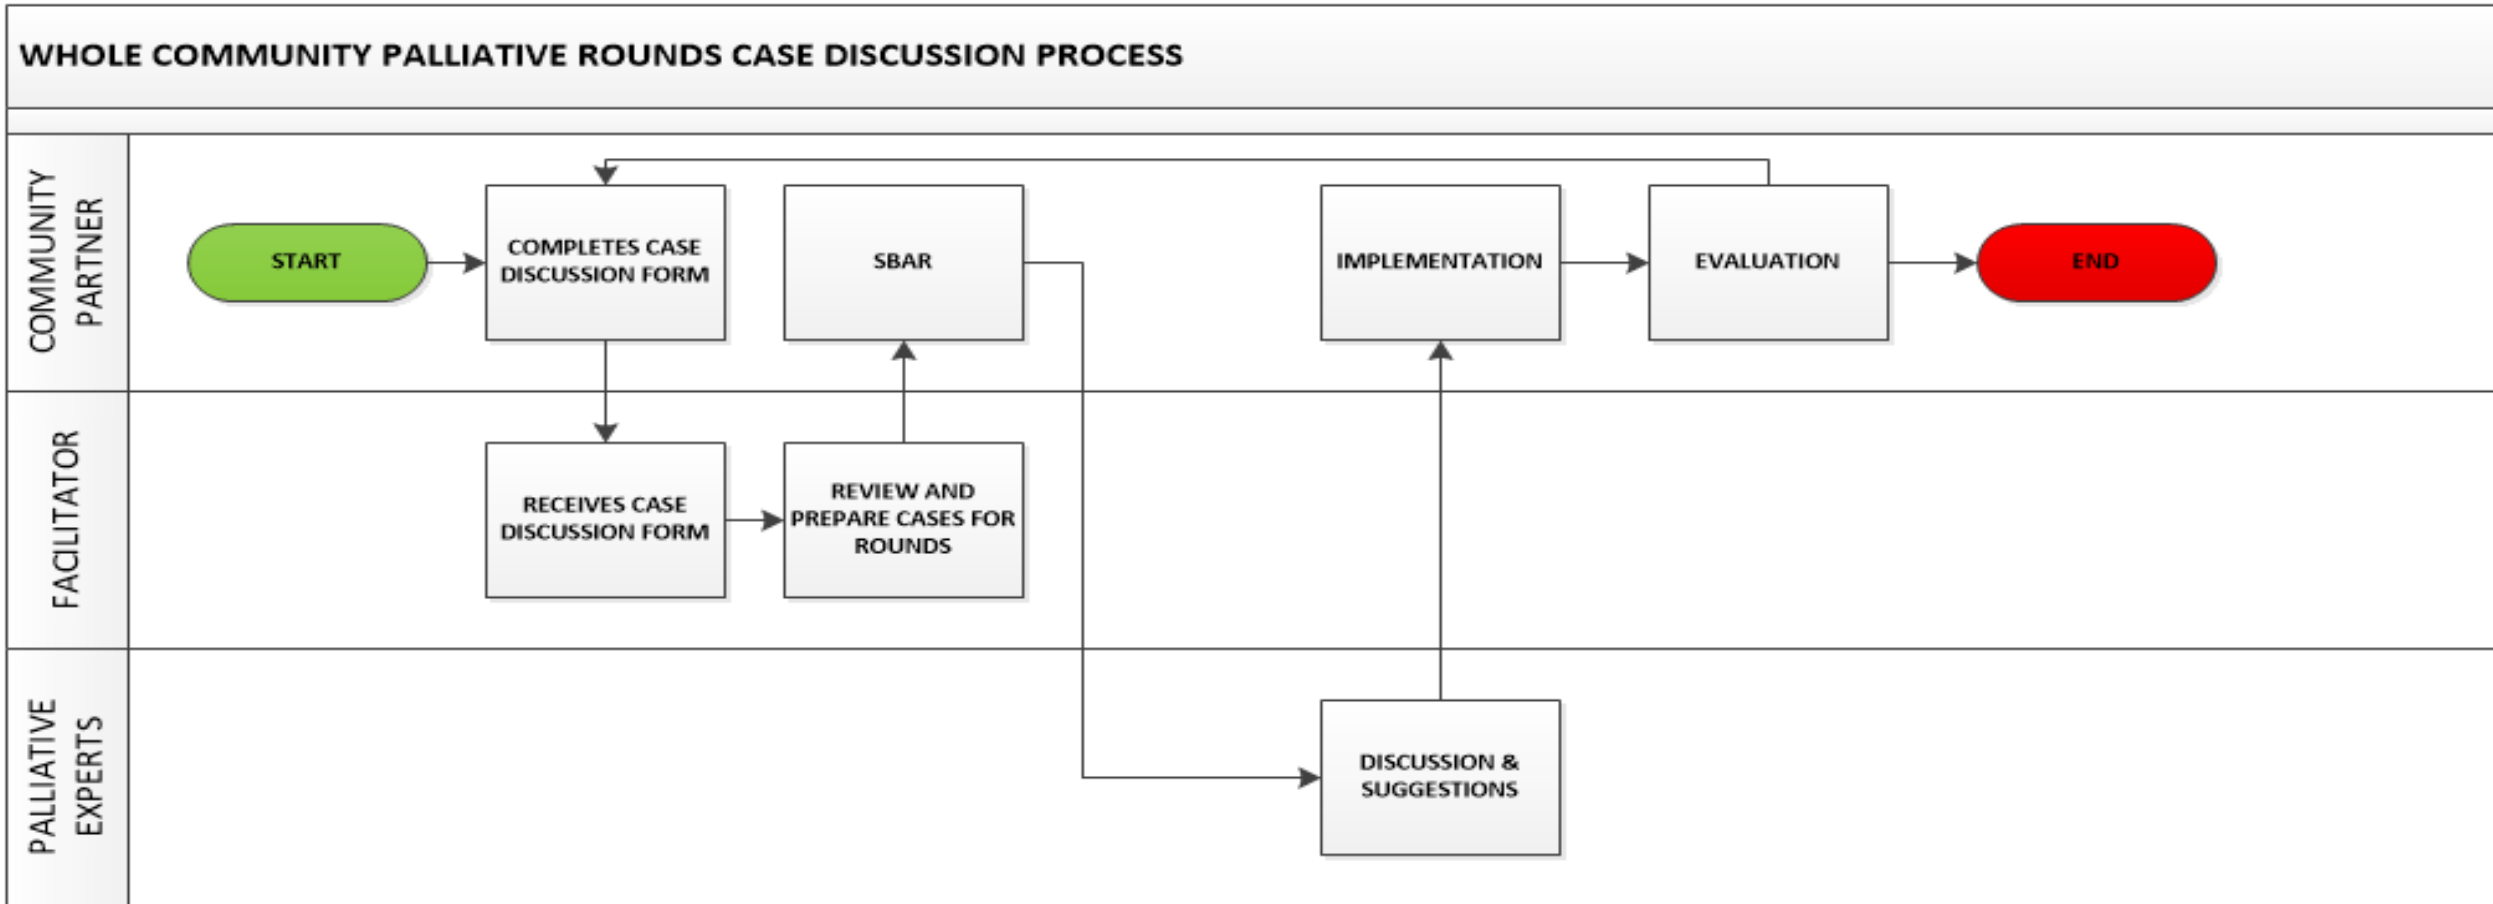

Identifying the target population

- Any patient within the Stormont, Dundas, Glengarry region who is living with a life limiting disease/condition
- Symptom burden
- Encouraging clinician to utilize the rounds as another resource to assist in patient and family care management when,
 - Client and family wishes/goals are compromised
 - Complex case dynamics

Case Discussion Process

Engaging & motivating partners

- Introductory Presentation & Package
 - “Road Shows” 1 page Backgrounder to capture the essence of the WCPR initiative
 - Magnetic Business cards
- Mass Communication by way of invitation to a MOCK WCPR session (90 clinicians)
- Presentations at Networking at Clinical Events
- Case discussion template

Anticipated Challenges & Opportunities

Challenges

- Engagement

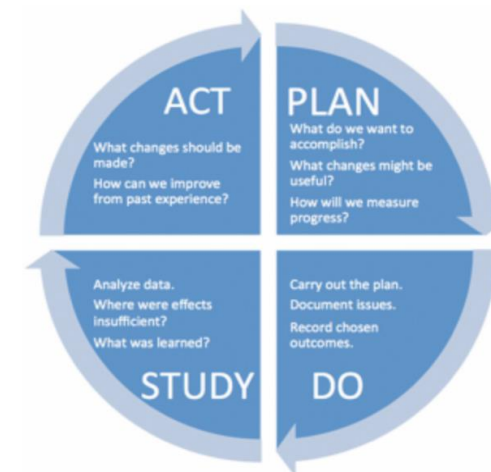

Opportunities

- Relationship building
- Quick wins > Improved collaboration
- Knowledge building
