The Canadian Home Care Association (CHCA) is a national membership organization committed to fostering integrated, person-centred care in home and community settings. Representing a diverse membership of public and private organizations that fund, manage, and deliver services and products, the CHCA provides a unified voice to advance the integration of health care. Through advocacy, collaboration, and knowledge sharing, the CHCA champions a vision of a seamless, accessible, accountable, and evidence-informed health care system that prioritizes patients and their families while ensuring long-term sustainability.

The Canadian Centre for Caregiving Excellence supports and empowers family caregivers and care providers, advances the knowledge and capacity of the caregiving field and advocates for effective and visionary social policy with a disability-informed approach. The Canadian Centre for Caregiving Excellence is a program of the Azrieli Foundation, which has long supported innovative initiatives to improve access to quality care.
